

explodingcostsaphobia {fear of Windows 7 deployment}

Sogeti helps you deploy Windows® 7 cost-effectively.

Your transition to Windows 7 doesn't have to be an exercise in economics. Sogeti has unique insight into Windows 7 that can help you avoid unnecessary deployment costs. During our initial analysis, we will help you determine what applications, equipment and software need to be upgraded and which are ready for Windows 7. We deploy Windows 7 exactly as Microsoft itself would, and we can work with you to handle your migration efficiently, using best practices to manage expenses. When you have expertise and preparedness on your side, you'll find that the cost of deploying Windows 7 is nothing to be anxious about.

Start overcoming your fears. Text Win7 to 30364 or visit us.sogeti.com/win7 for a copy of our *7 Tips for Windows 7 Application Readiness* whitepaper and a free phobia t-shirt.*
